

By TAU Ventures / January 31, 2019

TAU Ventures has been selected by IVC Research Center as one of the Most Active Funds in 2018 (ranked #3 with eight first investments).

This emphasizes our commitment to provide pre-seed capital to promising early-stage startups in Israel. We are extremely honored and grateful for the recognition and proud to have achieved so much in such a short time (just 7 months since inception!)

Special thanks goes to our entrepreneurs, who believed in us and chose us as partners on their exciting journey.
